RETURN RECEIPT REQUESTED

Mr. James Barksdale
U.S. Environmental Protection Agency
RCRA Federal Facilities Branch
345 Courtland Street, N.E.
Atlanta, GA 30365

Dear Mr. Barksdale:

Our seventh Technical Review Committee (TRC) Meeting for the Installation Restoration Program will be held at Naval Submarine Base, Kings Bay on March 22, 1994 at 1:00 pm. The TRC will meet in our Facilities and Environmental (formerly Public Works) Conference Room in Building 2015.

We should be well into our pilot remediation program by then and our progress in addressing the contamination at the Old County Landfill will be discussed. We will also review feedback from the State of Georgia on our investigation reports.

We plan to make a short presentation to the TRC, then visit the site for a briefing on the progress of the pilot study. This will be followed by another Public Information Session at the Crooked River Elementary School between 4:00 and 8:00 pm. This session will be a little different than previous Public Information Sessions with no formal presentation planned. Instead, we will set up booths and posters, with specialists available for discussion on particular areas of concern.

You are an important part of our program and we urge you to attend both the TRC meeting and part of the Public Information Session. We look forward to meeting with you again. If you have questions, please contact Mr. John Garner at 912-673-8845.

Sincerely,

M. J. PATTERSON
Lieutenant Commander, CEC, USN
Assistant Public Works Officer
By direction of the
Commanding Officer
